

**REMARKS**

Claims 1-4, 6, 7, 15, 17, 20, 21 and 23-30 have been amended, claims 5, 14, 31 and 32 have been canceled, and claims 33 and 34 have been added. Claims 1-4, 6-8, 10-13, 15-30, 33 and 34 remain in the application.

The Examiner objected to claims 28 and 29 because of lack of antecedent. These claims now depend from claim 15 where they find proper antecedent.

The Examiner objected to claims 30 and 31. Claim 30 has been amended to be in independent form and claim 31 has been canceled

The Examiner allowed claims 10-13 and stated that claims 3, 7-8, 15-16, 20-21, 23-24 and 30-32 would be allowable if amended to include all limitations of base and intervening claims.

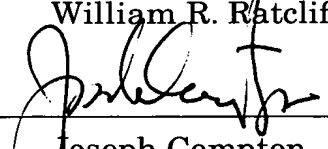

Accordingly, claims 3, 7, 15, 20, 21 and 30 have been amended to be in independent form with claims 4 and 23-25 depending from claim 3, claims 6 and 8 depending from claim 7, claims 16-19, 22, 28 and 29 depending from claim 15, and claims 26 and 27 depending from claim 20.

In addition, independent claim 1 has been amended to recite an array of light redirectors and therefore (with its dependent claim 2) patentably distinguish over the cited art. Added independent claim 33 includes resistive members to also patentably distinguish over the cited art. Added claim 34 is similar to allowed claim 21 but spaces the phosphor film from the light redirector as supported by FIG. 9 of the filed drawings.

It is noted that in amending claims 3, 20 and 30, claim wording has been somewhat altered to clearly recite the limitations.

It is also noted that claim 30 has been amended to add the limitations of claims 31 and 32 as alternate embodiments to thereby preserve the original scope of these claims while avoiding unnecessary additional claim fees.

Applicant therefore requests reconsideration and withdrawal of the rejections and objections and an early allowance of claims 1-4, 6-8, 15-30, 33 and 34 to thereby join already-allowed claims 10-13.

Respectfully submitted,  
William R. Ratcliffe
